Ibn Roch High School – Reggane Year 2FL/2nd-term English test | 2023-2024

Full name: .....

Class: .....

Activity one: Read the following passage carefully then answer the questions underneath.

A **conductor** is a material that allows an electric current to flow along it. Unlike an **insulator**, a conductor is utilized in wires to facilitate electricity movement with as little resistance as possible. Examples of conductors are copper (Cu), gold (Au), silver (Ag) and aluminium (Al). Examples of insulators are rubber, plastic and wood. Copper is often used in wires because it is a good conductor. Besides it is incomparably more obtainable than gold which is scarce, unaffordable and full of trouble.

a- How does a conductor compare with an insulator?
……

b- What's the chemical symbol for gold?
……

c- How many examples of insulators are mentioned and what are they?
……..

d- Why is copper often used in wires?
……

Activity two: complete the table.

word	line	reference
it	1	
it	4	
which	5	

Activity three: Once you have put the verbs in brackets in the right form, put ***threat, warning, promise*** or ***prediction*** at the end of each sentence.

- If you get the full mark in English this time, I ..... a box of chocolate. **(buy)**
- If you get a bad mark in English this time, I ..... your daddy. **(tell)**
- If you spend six months in England, your English..... . **(improve)**
- The lions will attack you if you .....out. **(not keep)**

Activity four: Which adjectives can be derived from these verbs/nouns? Answer the question by adding suffixes: **al – ate – able – ic – ous – ful**

verb/noun	adjective	verb/noun	adjective
courage		accept	
use		nature
