A/Comprehension (7pts)

In the modern globalized world , countries are influenced by modernity and development that has spread in every aspect of life . For instance, If you take a look on the present day Algerian lifestyle, you will notice that it has radically changed over the last decades. Traditions and customs have been replaced by fashion and modernity. Yet, Algerians still regard their old life style as something precious.

In the past, Algerians used to live in big families where the grand parents and the sons stay together in one single house even when their sons are married. They used to prepare dishes like Couscous. they didn't use to have televisions or even electricity ,so they used to light candles at a family reunion and tell stories that they called *'hedjaya'*. Also, clothes were different ,*djellaba* and *haiek* were very popular. On the other hand, means of transport were primitive ,**they** used to travel by animals.

Although many people regard lifestyle in the past to be boring and difficult, **it** still remains simple and interesting for us. What we can say is that we like fashion, modernity and development without neglecting our tradition.
